

Dublin City Schools Credit Flexibility Options Overview

As a result of Senate Bill 311, Credit Flexibility is an opportunity for students to create unique learning experiences. Credit Flexibility allows students to demonstrate their understanding and skills according to their individual learning styles and experiences. All high school students have the opportunity to submit an application for Credit Flexibility.

The two Credit Flexibility options are:

- Credit by Subject Area Competency through Assessments (Test Out)
- Credit by Educational Option

The requirements of credit by subject area competency through assessment vary from course to course. Most courses will require at least two components to earn credit.

Credit Flexibility by Educational Option consists of a student developing his/her own proposal describing in great detail how they will demonstrate proficiency of the academic content standards/grade level indicators of the identified course.
